

Grand Opening Celebration

GARDENS AT HOWE PARK

Saturday, May 13th | 10 AM to Noon

Join us

for the opening of the new Gardens at Howe Park, featuring

Ribbon Cutting Ceremony

Guided Garden Tours | Workshop on High-Efficiency Sprinklers

Free Gift Bags with Gardening Tools for the first 100 attendees

The Gardens showcase four unique, state-of-the art water-wise demonstration landscapes, including:

- Sensible Switchover—represents the layout of most Sacramento residential front yards but features low-water plants and low-maintenance solutions perfect for our region's climate.
- Wilder Wonders—a wilder, less structured garden filled with color and texture that is designed to provide food and shelter for birds, butterflies and bees.
- Water Works—a working rain garden that shows how plants can take in, filter and hold water in the soil.
- Effortless Edibles—featuring low-water edibles and aromatics that can provide lots of goodies for your table, and color for your home.
